

# Montalvo Community Sidewalks

The city of Ventura is currently working to write a grant proposal that will bring sidewalks to our Montalvo neighborhood at no cost to the residents. Here are some important things you need to know:

- These sidewalks will likely be 5 to 6 feet wide including a 6 inch curb in order to abide by ADA requirements.
- If the grant is approved, the project will take 2-3 years to complete.
- The city has a legal “Right of Way” on your property. Up to 25 feet on Grand Ave, and 10 feet on Bristol.
- If you have trees, plants, or fencing that interferes with construction, the grant will pay for removal, but will not replace anything.

***Now's the time to let your voice be heard!*** Whether for or against, we need to know the desire of our residents so that we can represent you. Find out more and follow the development on our blog
